

SULTRASOFT P

Highly concentrated cleaning enhancer with a strong anti-static effect for use in perchlorethylene.

Application

SULTRASOFT P is a cleaning enhancer with a strong anti-static effect, specially developed for the closed perchlorethylene-machine.

Properties

- SULTRASOFT P ensures hygienic cleaning.
- Static charging and pill-forming are avoided for all types of work
- SULTRASOFT P ensures a good filter flow for the cleaning bath.
- Thanks to the specially-added surfactants, the cleaned goods have an agreeably soft texture.
- A neutral perfume gives a pleasant scent to the cleaned goods.

Special ingredients prevent greying and ensure bright, clear cleaning results for white and light-coloured textiles

Use instructions

- Optimal action of SULTRASOFT P is obtained with a 2-bath method, in which the first wash bath is continuously distilled.
- Basic concentration of the wash bath:
150 to 200 g SULTRASOFT P / 100 L solvent (cleaning bath + filter content).
- Re-dosing for each cleaning cycle: (At 1/3 bath replacement)
75 g SULTRASOFT P / 10 kg clothes.

SULTRASOFT P is not suitable for use as a pre-wash scrubbing agent. To scrub strongly soiled areas, use SULTREX P for best results.

Physico-chemical properties

- Clear amber liquid
- Relative Density @ 15°C - 1.04
- pH value @ 15°C - 7/8
- Solubility - Soluble in perchlorethylene
- Flash Point - >100°C

Safety & transport

Meets European directives on the classification, packaging and labelling of preparations.

Storage

Use above 5°C. Store above 0°C

Packaging

Canister 10 kg
